COMP 600: Graduate Research Seminar

Fall 2015: Mondays, 12:00–12:50pm, Duncan Hall TBA. Lunch provided. Instructor: John Greiner

1 credit hour, graded Satisfactory/Unsatisfactory — You must attend and fill out a short feedback survey for each speaker. No more than 2 unexcused absences allowed. (Contact the instructor to get absences excused.)

What is this seminar?

A seminar primarily for Computer Science graduate students to practice presenting their research and to be exposed to the breadth of the department's research. We also welcome faculty, post-docs, and research staff to present. Occasionally, we also invite outside speakers to speak on research or professional topics. All CS PhD students in residence at Rice are expected to enroll each semester and to present every four semesters.
